

TECHNICAL DATA SHEET ALUPRIME LHR77

Application:

White based primer for Aluminium and metallised substrates applied on to be printed surface.

Supplier:

Media inks.
Amman Industrial Estate.
Sahab 11512.
Amman / Jordan.
Tel:- +9626-402292
Fax: +9626-4022973.

Chemical And Physical Properties:

Form:	Liquid.
Colour:	White.
Thinner:	Water.
Accelerator:	Isopropanol.
Pour Point (C):	-55 (crystallisation may occur in Cold weather).
Application:	Flexo/Roto. The primer should be properly dried prior to application of inks.
PH:	8-8.5.
Viscosity:	50 sec. DIN CUP 4.
Storage:	Stored at room temperature. Shelf life is 6 months from date of Production.

The above figures are subject to industrial tolerances, that will not affect usage on press. Information given in this sheet is based on our own general experience and has been given in good faith. However, the product's performance and its suitability for the customer's purpose depend on the particular conditions of use and the material being printed. We recommend that customers satisfy themselves that each product meets their requirements in all respects before starting a print run. Since we can not control the condition under which our products are used it is not possible to guarantee their performance
